Your Inviters/Responsibility

1. Introduce you to the opportunity/products
2. Get you the getting started information and confirm your payment.

Your Role/Responsibility

Your role and responsibility in this opportunity are critical for your success, and we want to ensure that you understand what is required of you to make this work:

1. Take responsibility for this being YOUR business. You get to tap into the tech team, the websites/funnels, the success coaches closing sales, etc. But it's ultimately your business, and you are responsible for making it what it is.
2. To make sure more and more people are going into your system. This business isn't a lotto ticket, and the call center can't make something out of nothing. If you are not having traffic poured into the funnel consistently, the emails will not be working for you, the proof videos won't be working for you, and no calls will come in for the coaches to close for you. It's a simple numbers game, and your job is to make sure you are consistently advertising so the numbers can work themselves out.
3. Look at your stats and adjust. Your CRM will show you all the "opts-in" from your ad campaigns. The dashboard will show you every time a call comes in. The dashboard will show you all messages that are left. The dashboard will show you the outcome of each message left. Based upon what is happening with the numbers of those things above combined with your goals, you will then adjust how much advertising you are getting out there.
4. Make sure you have read all of the documents and gone through the training videos so that you are familiarized with how everything works.

We are committed to helping you achieve success with the system, and we are confident that if you follow through with your responsibilities, you will reap the rewards of your hard work.

To your success!
